Office of Chief Counsel
800 Independence Avenue, SW
Washington, DC 20591

Gentlemen:

RE Exemption Number 6897, FAR 91.109(A)

I wish to renew this exemption—which allows giving dual instruction in Beech airplanes having throw-over controls to individuals qualified to serve as PIC in the airplanes under certain circumstances.

Other than having accumulated about 150 additional incident-free flight hours operating under this exemption, there have been no changes that would affect the original exemption request. The conditions and reasons regarding public interest and safety presented in the original petition upon which the exemption was granted remain the same. Therefore, I request an extension.

Should any further data be required, please inquire at 970 288 3037.

By the way, I made this request via the dms.dot.gov website on Jan 9. I'm sure I included the idea of no changes from the original petition in that response. I would not use the website for this again because there is no feedback that the request has not just gone into a black hole. It was difficult to figure out how to even make this request.

Very truly yours,

William L. Hale
